NATHAN SETARO

setaronathan@gmail.com | linkedin.com/in/setaro/ | Auburn, AL

EDUCATION

Auburn University
Pre-Industrial & Systems Engineering. ASCMA, NPSE, IM Men's Volleyball | GPA: 4.0 *Freshman*

Worcester Technical High School
Information Support Services & Networking. Rank: 3/330 | Weighted GPA: 4.6 2022–2026 | *Worcester, MA*

EXPERIENCE

Clean Energy Technology Academy Intern **Summer 2026**
National Grid
- Collaborated with a team of interns to research, design, and deliver a capstone presentation on clean energy technology.
- Rotated through electric and gas sectors, gaining hands-on exposure to utility operations and infrastructure.

Reactive Support Intern **September 2025 – June 2026**
Machado Consulting
- Deployed and configured computing devices for client organizations, ensuring systems were ready for end-user handoff.
- Diagnosed and resolved technical issues, deployed software updates, and performed routine system maintenance.
- Consulted directly with clients on computer systems, translating technical issues into clear, actionable guidance.

MedHigh Summer Researcher **Summer 2025**
Massachusetts Life Sciences Center / WPI
- Prototyped medical devices intended for use in developing countries as part of a student research team.
- Used Onshape to 3D model components, researching existing solutions to identify design gaps and inform new concepts.
- Collaborated with a multidisciplinary team to design and build functional device prototypes.

Student IT Support Specialist **Winter 2023 – Spring 2026**
Worcester Technical High School
- Troubleshot hardware, software, and network issues for faculty and students across the school.
- Partnered with fellow student technicians to design, build, and maintain school IT infrastructure.

PROJECTS

Self-Hosted Personal AI Assistant
- Designed, configured, and deployed a self-hosted AI assistant on personal server infrastructure.

Glucose Detection Pacifier
- Prototyped a non-invasive glucose-monitoring device concept for medical applications.

Self-Hosted Cloud
- Built and configured a self-hosted cloud server supporting multiple personal applications.

Network-Attached Storage
- Designed and built a network-attached storage server for a client.

Self-Hosted Website & Server
- Designed, built, and maintain a personal website running on self-managed server infrastructure.

SKILLS

Technical: 3D Modeling (Onshape), Computer Troubleshooting, Network & Systems Support, Microsoft 365
Professional: Research & Design, Client Consulting, Presenting, Team Collaboration

CERTIFICATIONS

- CompTIA A+ (2025)
- CompTIA ITF+ (2023)
- OSHA 10-Hour (2026)
- CPR & First Aid (2026)

AWARDS & HONORS

- Seal of Biliteracy, Italian & English (2026)
- MAVA Outstanding Vocational Technical Student Award (2026)

ACTIVITIES

American Red Cross & Local Food Banks
Volunteer
- 160+ hours of community service.
